Anadarko Petroleum Corporation

Anadarko Petroleum Corporation
P.O. Box 173779
Denver, CO 80217

Place Stamp Here

Hello,

Anadarko Petroleum Corporation will be performing maintenance on existing wells near your community beginning on or around June 9th (see map on reverse side). It will take approximately two and a half months to complete the well maintenance, and you may see a slight increase in traffic in the area.

The well maintenance will be performed in the order listed on the map. Maintenance at locations one and two are scheduled to be completed first to ensure that work nearest Erie High School is completed before the school year begins. In an effort to reduce the impact to the surrounding community, crews will only be working on site Monday through Friday from 7:00 a.m. to 7:00 p.m.

Thank you in advance for your patience while we perform work in your community. If you have any questions or wish to report an issue related to our operation, please do not hesitate to contact us. We value your feedback.

← *See reverse side for more details*

- Just like your car every few thousand miles, Anadarko periodically performs routine maintenance on existing wells
- This procedure is regulated by the Colorado Oil and Gas Conservation Commission (COGCC)
- You will see a work over rig (pictured below), cement trucks, water trucks, and other heavy equipment on location
