

Hello,

Sorry to have missed you. We stopped by today to speak to you about our upcoming activity on an existing oil and natural gas well in your area. Please see the map on the reverse side for reference.

The subject well is scheduled to be retired from oil and natural gas development. This procedure is commonly referred to as Plug and Abandonment and is regulated by the Colorado Oil and Gas Conservation Commission. A work-over rig (pictured on the reverse side) and other heavy equipment will be needed to conduct this operation.

The work is scheduled to **begin on or around January 9th** and will take approximately one to two weeks. In an effort to reduce the inconvenience to the surrounding residents, crews will be working on site Monday through Friday during daylight hours only. You may notice a slight increase in traffic and are likely to hear the activity during operations.

In the weeks following the plug and abandonment procedure, you will see the associated equipment removed and the land reclaimed to match the existing landscape.

Thank you for your patience while we perform work in your community. If you have any questions or wish to report an issue related to our operation, please do not hesitate to contact us via the Anadarko Colorado Response Line at **866.248.9577** or **AnadarkoColorado@anadarko.com**.

When you contact us, please reference this activity by the following name:
Roloff USX UU 9-7 P&A

Sincerely,
Anadarko Petroleum Corporation
