

Hello,

We are writing today to let you know about maintenance activity you will see on an existing oil and natural gas well near your community in the coming week. Please see the map on the reverse side for reference.

The work is scheduled to **begin on or around April 13th** and will take approximately three to five days. A work-over rig (pictured on the reverse side) and other heavy equipment will be needed to conduct this operation. In an effort to reduce the inconvenience to the surrounding residents, crews will be working on site Monday through Friday during daylight hours only. You may notice a slight increase in traffic and are likely to hear the activity during operations.

Thank you for your patience while we perform work in your community. If you have any questions or wish to report an issue related to our operation, please do not hesitate to contact us via the Anadarko Colorado Response Line at 866.248.9577 or AnadarkoColorado@anadarko.com.

When you contact us, please reference this activity by the following name:
TALLGRASS 5-8

Sincerely,
Anadarko Petroleum Corporation

Anadarko Colorado Response Line: Monday - Friday 7:00AM - 4:00PM
