Hello,

We are writing to let you know about upcoming activity on an existing natural gas gathering line in your area. Please see the map on the reverse side for reference. We are planning on installing a gathering line to the north of your community. This line will tie in two Crestone well location facilities.

A welding truck, backhoe and hydro-vac (pictured on the reverse side) are needed to conduct this operation. The work is scheduled to begin on or around **the week of October 16th** and will take approximately four to six weeks. In an effort to reduce the inconvenience to surrounding residents, crews will work Monday through Saturday during daylight hours only. You will see the operations and are likely to hear construction like noise during the operations.

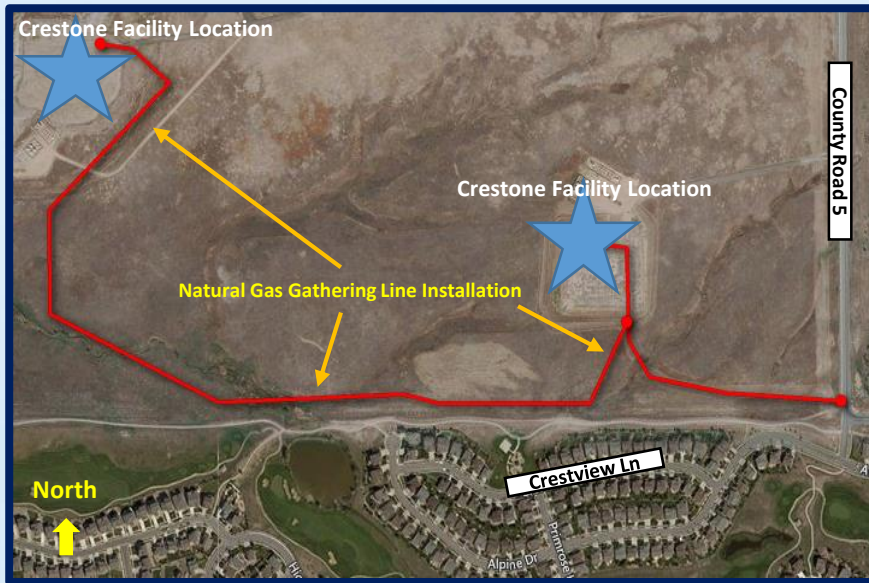

Thank you for your patience while we perform work in your community. If you have any questions or wish to report an issue related to our operation, please contact us via the Anadarko Colorado Response Line at **866.248.9577** or **AnadarkoColorado@anadarko.com**.

When you contact us, please reference this activity by the following name:
Gathering Line Installation- Pratt

 *See reverse side for more details*

- Work is scheduled to begin **the week of October 16th** and will last approximately 4-6 weeks
- You will see a backhoe, welding truck and hydro-vac used during this activity
